

NASAA INTRODUCTORY ORGANIC INSPECTOR TRAINING COURSE

If you are interested in becoming a Certified Organic Inspector and want a career in one of the fastest growing industries in the world- then the NASAA Inspector theory training course is for you!

This service puts you on the farm, in the supply chain for processing and provides a valuable service to passionate people who care about growing, manufacturing and providing products with values and ethics.

The domestic and international certified organic industry has seen year on year growth, and continues to provide substantial opportunities in the agribusiness sector for new markets and diversification opportunities. As part of this industry growth, there is a growing service sector in provision of certification services to our agribusiness sector. This on-demand, online course is designed to provide an introduction to potential NASAA Certified Organic inspectors (NCO); by providing you with what is expected of an Organic inspector, the fundamental of organic production practices, and an understanding of the inspection process to conduct onsite inspections of organic crops and livestock, processors input manufacturers and handling operations.

This course is for:

- Those wanting to become an Certified Organic Inspector
- Current Organic food producers or processors or those in conversion seeking a deeper understanding of the standards and inspection process
- Agriculture professionals, Quality assurance consultants
- Those wishing to enter into certified organic farming, processing or related industries.

In this course, you will:

- Learn about The Organic Industry & Certification Overview
- Understand the Role and Responsibilities of the Organic Inspector
- How to Plan and Conduct Organic Inspections
- Develop a clear understanding of Audit trails and Record-Keeping
- The importance of reporting for Organic Inspections

Course Material:

All course material is provided via manuals, power points, and recorded lessons. Multiple assessments will need to be completed to obtain the Certificate of Achievement.

Cost: \$1100AUD inclusive of GST, including all training materials, access to PowerPoint, videos, and marking assessments with feedback to achieve Certificate of Achievement.

Completion of the course does not guarantee paid work with NCO, but will give you the theory fundamentals of becoming an NCO Inspector.

In addition to this course, to become an NCO Inspector you are required to attend and conduct several inspections with a senior inspector, who will assess when the trainee inspector is competent to inspect on their own. There is also additional online training required for any inspectors who are contracted to NCO, for international programs such as USDANOP and JAS.
